EXAMINER'S AMENDMENT

1. An examiner's amendment to the record appears below. Should the changes and/or additions be unacceptable to applicant, an amendment may be filed as provided by 37 CFR 1.312. To ensure consideration of such an amendment, it MUST be submitted no later than the payment of the issue fee.

Authorization for this examiner's amendment was given in a telephone interview with Patrick McPherson (Reg: 46,255) on 10/21/05.

The application has been amended as follows:

Claim 6, line 1, after "as claimed in Claim" replace "5" with -- 1 --

Claim 19, line 1, after "as claimed in Claim" replace "5" with -- 1 --

Claim 25, line 3, after "directing" cancel ":"

Claim 32, line 14, after "randomly positioned target" replace "to thereby eliminate the substitution of the prerecorded biometric characteristics for the observed characteristic in the comparison." with -- ; verifying the presence of the person whose biometric characteristics are being observed based on the eye movement; and performing the comparison using the obtained biometric characteristic. --

2. The following is an examiner's statement of reasons for allowance:

The art of record does not teach nor does it suggest the specific features called for in the claims, particularly the concept of verifying a user's presence prior performing a biometric identification by requiring the user to move his or her eyes toward a randomly positioned target on a screen. The concept of verifying the presence of a person before identification is well known, for example checking a person's pulse prior to taking a fingerprint; but requiring eye movement for this task is not taught in the prior art.

Any comments considered necessary by applicant must be submitted no later than the payment of the issue fee and, to avoid processing delays, should preferably accompany the issue fee. Such submissions should be clearly labeled "Comments on Statement of Reasons for Allowance."
